Daily public speaking practice.	
	Texts: Teaching Writing: Structure and Style and Medieval History- Based Writing Lessons, (IEW)	Texts: Teaching Writing: Structure and Style and American History-Based Writing Lessons Vol. 2, (IEW).	
VOCABULARY	Proven direct-instruction vocabulary program introduces more key words each year, improves reading comprehension, supports writing and speaking skills, and increases standardized-test scores. Texts: Spell to Write and Read (BHI Books); Vocabulary Workshop (Sadlier-Oxford).		
HANDWRITING	Maintain required cursive standard in all assignments.		
TOUCHSTONES (Socratic Inquiry)	Every week students and teachers engage in a Touchstones discussion. The readings will occasionally integrate nicely with the time period being studied, though the primary purpose of Touchstones is to develop the habits of Socratic inquiry. Teachers and students will engage in close study of philosophical and literary texts and will learn, over time, to speak clearly and listen attentively. The skills acquired in Touchstones will be carried over into all aspects of school and home life.		
LOGIC	An in-depth study of the classical syllogism. Along with a basic understanding of the Christian theory of knowledge, students learn the four kinds of logical statements, the ways propositions can be opposed, the ways which they can be equivalent, and more.		
	Traditional Logic I, Memoria Press		
POETRY	Daily memorization of poems or speeches; public recitation of poetry or speeches in front of the class and school.		

Review mastered facts related to history dates and figures and events. Timeline review. Texts: Christ the King, Lord of History (TAN); The Ultimate Geography & Timeline Guide, Wiggers. SCIENCE/HEALTH Life Science The study of life processes, principles and concepts. Cells, protists, fungi, plants, animals, nutrition, disease, systems of the body, ecology, and more. Pro-life text. Scientific method; experiments. LATIN Latin Ia High-school level course introducing students to the perennial tongue of Western civilization and of Holy Mother Church. Focus on the basic structure of the language: five kinds of Latin nouns, two kinds of adjectives, four regular conjugations of verbs; and the skills needed for translation; ecclesiastical pronunciation. Texts: Latin Grammar and First Year Latin, Henle. ART Art history, appreciation, theory, and practice are covered in these year-long courses that lead children to God by Benedict XVI's "way of beauty." Students continue to develop a Catholic appreciation for art, recognize famous works and identify their artists, and gain an understanding of the historical periods of Western art and art theory. They create projects and drawings as they journey through the developmen of art beginning with Ancient times and continuing through the Modem period. Special attention is paid to the spiritual significance of at as an expression of "the human need to surpass the visible" (Benedict XVI). The purpose is not merely to teach fine arts skills or develop a familiarity with famous artists, but still more to cultivate a sensitivity to beauty and to the way God speaks through art. CHOIR Eventuation of the human need to surpass the visible" (Benedict XVI). The purpose is not merely to teach fine arts skills or develop a familiarity with famous artists, but still more to cultivate a sensitivity to beauty and to the way God speaks through art.		SEVENTH GRADE: CHRISTENDOM CYCLE	EIGHTH GRADE: NEW WORLD CYCLE
